Refrigeration Design and Service, Inc. (RD&S) a leader in Industrial Refrigeration system design, installation and service and with headquarters in Fairless Hills, PA has a number of employment opportunities to meet our expanding operations. We currently have openings at all three of our locations Fairless Hills, PA, Moosic PA and Deatsville, AL.

### Sales Engineer

This position is responsible for the development of new construction project accounts and the continuing coordination of projects with existing clientele.

The prospective candidate will develop project scope, perform preliminary engineering, estimate project cost and assemble proposal documents and presentation. You should be knowledgeable in all aspects of refrigeration system design and construction. We prefer someone with a background in the industrial market but will consider training a person knowledgeable of commercial refrigeration who possesses the desire to move into industrial refrigeration.

The position offers a commission with base salary compensation package with medical benefits, 401K program and paid holidays and vacations.

Refrigeration Design and Service has developed a high degree of customer loyalty due to its ability to provide comprehensive service to meet the requirements of our clients. Our goal is to exceed customer expectations with excellent customer service.
